

# 2021 PRODUCER CERTIFICATION

## GlobalHealth

GlobalHealth is excited to work with you during the upcoming 2021 Annual Enrollment Period. As AEP approaches, we would like to remind you that in order to sell GlobalHealth Generations Medicare Advantage Plans for plan year 2021, you must complete our Compliance and Product Certifications by September 30, 2020.

You can access the link to the certifications on the [Agent/Broker Portal](#). You have three (3) opportunities to score an 85% or higher to pass each certification. If you attempt a certification and do not receive an 85% or higher, you must wait 24 hours before retaking the certification.

As a reminder, if you prefer, you can also access the 2021 AHIP from our [Agent/Broker Portal](#) too. We are here to help you! If you have any questions, please reach out to one of your dedicated GlobalHealth team members below.

- If you fail an exam it requires you to wait 24 hours before another attempt. Please be careful with your answers.**
- Agents must be certified in the year they are marketing.
- Email all copies of certifications to [certs@appliedga.com](mailto:certs@appliedga.com).
